

HOGS WERE STEADY
Market Was Firm But Trifle Groggy.
TOP PRICE WAS \$4.65
Poor Quality of Offerings Prevented Higher Tops.

The hog market yesterday was steady, but somewhat drab. The market opened steady, with a firm feeling in spite of lower and discouraging reports from other markets. The price was kept up during the day, although at times trading was dull and sales were not made rapidly. This, however, was greatly due to the poor quality of hog in which rather discouraged the buyers. There was a great difference between the quality of the offerings yesterday and those of the day before, which were excellent. There was a fair run of hogs for a Saturday, although it was considerably less than for several Saturdays past. There were few wagon hogs on the market, but this was undoubtedly due to the bad season, which without doubt also affected the supply of car lot hogs to a considerable extent. The top price of the day was \$4.65, while the bulk of the sales went at \$4.60. The top price was \$4.65, which was paid for a car lot hog, compared with the day before, but this was due to the poor quality of the hogs and not to the price. The heavy hogs and medium weight hogs were on the market, and the bulk of the sales went at \$4.60. The market was firm, but the quality of the offerings was poor, and this prevented higher tops.

HEAVY HOGS.
